

## **A Randomised Controlled Trial to examine the clinical and cost effectiveness of Cognitive Behaviour Therapy for depressed older people in General Practice**

### **Selection Criteria**

- Over 65 years of age
- No major cognitive deficits
- No concurrent alcohol / drug problems
- No bipolar mood disorder
- No diagnosis of psychosis
- Either already on antidepressant medication for at least 8 weeks or not taking any antidepressant medication
- No one currently receiving Cognitive Behaviour Therapy
- Sufficient English to engage in therapy

The research fellow will formally screen for any of the above and for cognitive deficit. If you have any queries with regard to selection criteria for entry into or exclusion from the study please contact Deborah Haworth, Research Fellow, or Susan Comegys, Research Assistant, on 020 7472 6839 (direct) or 020 7472 6168 (secretary) or 07967 591 873 (mobile). Alternatively you can email: [d.haworth@medsch.ucl.ac.uk](mailto:d.haworth@medsch.ucl.ac.uk)
